to participants of the congress*

## Registration:

[SSNS2018.congress-imk.ch](http://SSNS2018.congress-imk.ch)

## FACULTY:

Prof. Dr. med. Michael Reinert, Lugano, Neurosurgery

Prof. Dr. med. Raphael Guzman, Basel, Neurosurgery

Dr. med. Thomas Robert, Lugano, Neurosurgery

Dear colleagues,

It will be a great pleasure for us to see you at the first vascular micro-anastomosis course that will take place in Lugano during our next joint meeting (SSNS, SSNR).

Vascular micro-anastomosis although rare in cases, presents a technical challenge that necessitates repeated training. In a course, addressed to young neurosurgeons and residents, training on plastic models under microscope enables the trainee to learn basic concepts on vascular micro-anastomosis and indications.

We hope that you will appreciate this course and we are waiting for you.

Prof. Dr. med. Michael Reinert

Dr. med. Thomas Robert
