

Program

2nd SFCNS Summer School 2018

Modul II

- Sleep and epilepsy
- Emergencies in the Neurocenter

Co-Presidents of the organizing committee

Prof. Marcel Arnold, MD, Bern
Rebekka Kurmann, MD, Bern

24-25 August 2018

Inselspital, Bern / Switzerland

www.sfcns-summarschool-2018.congress-imk.ch

Welcome to Bern

Dear colleagues,

It is our great pleasure, on behalf of the co-presidents of the organizing committee, Prof. Marcel Arnold and Dr. Rebekka Kurmann and the president of the Swiss Federation of Clinical Neuro-Societies (SFCNS), Prof. Karl Schaller, to cordially invite you to the SFCNS Summer School 2018. The event will take place from August 24-25, 2018 at the Inselspital in Bern.

The SFCNS was founded 2009 to promote collaborations and interactions between clinical neurosocieties in Switzerland in order to enhance knowledge, information, and overall impact of our disciplines at scientific, public and political level.

The SFCNS Summer School is mainly aimed at **neurologists, neuroradiologists, neurosurgeons, neuropediatrics, psychiatrist and other neuroscientists**. Module I took place for the first time in 2017 and will be pursued by Module II and Module III in 2018 and 2019 respectively.

The Module II is constructed around the following **topics**:

- Sleep
- Epilepsy
- Emergencies in the Neurocenter

We hope that this event will be of interest to you and we look very much forward to welcoming you in Bern.

Prof. Marcel Arnold, MD
Co-President of the organizing committee

Rebekka Kurmann, MD
Co-President of the organizing committee

Prof. Karl Schaller, MD
President SFCNS

Partner companies 2018

Sleep

Chairs: Johannes Mathis, Bern; Corrado Garbazza, Basel

09:15-09:40

Chronobiology of sleep

Corrado Garbazza, Basel/Lugano

09:40-10:05

New aspects in RLS

Johannes Mathis, Bern

10:05-10:40

Coffee break

10:40-11:05

How will we sleep in the future?

Ramin Khatami, Barmelweid

11:05-11:30

Sleep and sleep disorders in childhood

Alexandre Datta, Basel

11:30-12:00

Differentiation of nocturnal seizures and parasomnia

Lino Nobili, Milan, IT

12:00-13:00

Lunch

sponsored by

Bristol-Myers Squibb

Epilepsy

Chairs: Frédéric Zubler, Bern; Bigna Bölsterli, Zurich

13:00-13:20

Epilepsy in women

Barbara Tettenborn, St. Gallen

13:20-13:50

Treatment and prognosis of status epilepticus

Vincent Alvarez, Sion

13:50-14:20

Principles of modern pharmacotherapy in epilepsy

Martinus Hauf, Tschugg

14:20-14:40

Epilepsy in childhood: genetic, structural or metabolic?

Sarah E. Bürki, Bern

14:40-15:10

Case/Videoforum: Is it epileptic or not?

Matteo Caporro, Bern

15:10-15:40

Coffee break

15:40-16:00

Importance of the neuropsychological assessment in epilepsy

Céline Gobbo, Geneva

16:00-16:30

Modern epilepsy surgery: the neurologists view (the origin of seizures in structural epilepsy)

Kaspar Schindler, Bern

16:30-17:00

Modern epilepsy surgery: the neuroradiologists view

Roland Wiest, Bern

17:00-17:30

Modern epilepsy surgery: the neurosurgeons view

Claudio Pollo, Bern

19:00

Networking Event at Restaurant Marzilibrücke

Emergencies in the Neurocenter I

Chairs: Marie-Luise Mono, Zurich; Philipp Balcerak, St. Gallen

- 09:15-09:40 **Top ten disorders in the neuro emergency room**
Marie-Luise Mono, Zurich
- 09:40-10:05 **Modern multidisciplinary stroke management**
Marcel Arnold, Bern
- 10:05-10:30 **Acute loss of consciousness- what to do next?**
Georg Kägi, St. Gallen
- 10:30-11:00 Coffee break
- 11:00-11:25 **Neuropediatric emergencies**
Maja Steinlin, Bern
- 11:25-11:50 **Movement disorders in the emergency room (video demonstration and Quiz)**
Stephan Bohlhalter, Luzern
- 11:50-12:15 **Pearls in the neuroemergency room: case presentations**
Thomas Horvath, Bern

12:15-13:30

Lunch
sponsored by

Emergencies in the Neurocenter II

Chairs: Christian Fung, Freiburg, DE; Irena Zubak, Bern

- 13:30-13:55 **Emergencies of the spinal cord**
Karl Kothbauer, Luzern
- 13:55-14:20 **Traumatic brain injury**
Christian Zweifel, Chur
- 14:20-14:45 **The role of the neurosurgeon in intracranial hemorrhage**
Christian Fung, Bern
- 14:45-15:15 Coffee break
- 15:15-15:40 **Multidisciplinary management of cerebral aneurysms: the neurosurgeon's view**
Philippe Bijlenga, Geneva
- 15:40-16:05 **Multidisciplinary management of cerebral aneurysms: the neuroradiologist's view**
Philipp Gruber, Aarau

Gekürzte Fachinformation Xarelto® (Rivaroxaban): Direkter Faktor Xa-Inhibitor **Z:** Filmtabl. zu 10, 15 und 20mg Rivaroxaban **I:** a) Thromboseprophylaxe bei grösseren orthopädischen Eingriffen a. d. unteren Extremitäten wie Hüft- und Knieprothesen. b) Behandlung von Lungenembolie (LE) und tiefer Venenthrombose (TVT) sowie Prophylaxe rezidivierender TVT und LE. c) Schlaganfallprophylaxe und Prophylaxe system. Embolien bei nicht-valvulärem Vorhofflimmern. **D:** a) 1x/Tag 10mg, b) 2x/Tag 15mg für die ersten 21 Tage, gefolgt von 20mg 1x/Tag c) 1x/Tag 20mg; bei Krea-Cl 15–49ml/min: 1x/Tag 15mg, 15mg und 20mg mit Mahlzeit einnehmen. **KI:** Überempfindlichkeit auf Inhaltsstoffe, akute bakt. Endokarditis, klin. sign. aktive Blutungen, schw. Lebererkrankung/ Leberinsuffizienz (L) mit relev. erhöhtem Blutungsrisiko; leichte LI in Komb. mit Koagulopathie, dialysepflicht. Niereninsuffizienz (NI), akute gastrointestinale (GI) Ulzera oder GI ulzerative Erkrankungen, Schwangerschaft, Stillzeit. **VM:** Komedikation (siehe «IA»); <18 Jahre; künstl. Herzklappen; d. Hämostase beeinfl. Arzneimittel. **NI:** (Krea-Cl 15–29ml/min) od. NI in Komb. mit Arzneimittel, die den Xarelto®-Plasmaspiegel erhöhen, erhöhtes Risiko unkontrollierter Blutungen und hämorrhag. Diathese, kurz zurückliegende hämorrhag. Schlaganfall, intrakran. o. intrazerebr. Hämorrhagie, kürzlich aufgetretene GI Ulzera/ulzerative Erkrankungen, schwere unkontrollierte Hypertonie, vask. Retinopathie, intraspinale o. intrazerebr. Gefassanomalien, kurz zurückliegende Hirn-, Spinal-, Augen-OP, Bronchiektasie oder pulmonale Blutung in der Anamnese, Spinalanästhesie und -punktion, mind. 24 Stunden vor invasiven Verfahren/ chirurgischen Eingriffen absetzen, gleichzeitige Gabe von d. Hämostase beeinfl. Arzneimitteln. Einzelfälle von Agranulozytose und SJS wurden berichtet. **Häufige UAW:** Blutungen, Anämie, Schwindel, Kopfschmerz, Augenblutungen, Hämatome, Epistaxis, Hämoptysis, Nausea, Obstipation, Durchfall, Leberenzym erhöhungen (ASAT, ALAT), Pruritus, Rash, Schmerzen i. d. Extrem., Fieber, periph. Ödem, Asthenie. **IA:** Starke CYP 3A4 + P-gp -Inhib. (Ritonavir, Ketoconazol), starke CYP 3A4 + P-gp -Induk. (Rifampicin, Carbamazepin, Phenobarbital, Johanniskraut), d. Hämostase beeinfl. Arzneimittel. **Packg.:** 10mg à 10 und 30; 15mg und 20mg à je 14, 28 o. 98 Filmtabl.; jew. Spitalpackung 10x1 Filmtabl. (B), kassenzulässig. SFCNS Swiss Federation of Clinical Neuro-Societies

The **Swiss Federation of Clinical Neuro-Societies (SFCNS)** was officially founded in 2009. First steps in that direction were taken at the Joint Meeting of six Clinical Neuroscience Societies in April 2008 in Montreux, which commemorated the centenary of the Swiss Neurological Society. The six founding societies decided to close ranks and form a Swiss Federation of Clinical Neuro-Societies (SFCNS) which marked the beginning of a new cooperative effort to strengthen the clinical neuro-sciences in Switzerland. The federation should formalise and structure the joint medico-political, educational and clinical research efforts. Its further aim is to hold common meetings on a regular basis to facilitate mutual interactions and be open also to other medical groups pursuing clinical neuroscience interests.
